Sasha's Out-of-This-World Cookies

Storybook Kitchen | Little Explorers (5-8) + Cosmic Adventurers (8-12) | Adult supervision required

Make: About 24 cookies | Oven: 350°F | Bake: 10-12 minutes

Ingredients: 2 1/4 cups all-purpose flour; 1 tsp baking soda; 1 tsp salt; 1 cup softened unsalted butter; 3/4 cup white sugar; 3/4 cup packed brown sugar; 2 eggs; 2 tsp vanilla; 2 cups semisweet chocolate chips.

1. Ask a grown-up to preheat the oven to 350°F and prepare baking sheets with parchment.

2. Whisk flour, baking soda, and salt in one bowl. In another, beat butter and sugars until creamy.

3. Beat in eggs and vanilla. Mix in dry ingredients, then stir in chocolate chips.

4. Scoop rounded tablespoons of dough onto baking sheets, spaced apart. Bake 10-12 minutes until edges are golden.

5. Let cool on the pan for a few minutes, then move to a rack. Enjoy once cool enough to eat.

Kitchen safety: A grown-up handles the oven. Wash hands after handling raw eggs or dough. Do not eat raw dough. Chocolate is toxic to dogs - Sasha's cookie is only part of the story!

LITTLE EXPLORERS | Count & create

Draw a cookie with exactly 12 chocolate chips. Count them twice!

My 12-chip cookie

COSMIC ADVENTURERS | Math mission

If you double the recipe, how many eggs, cups of flour, and cups of chocolate chips will you need?

_____

_____

Bonus: If you make 24 cookies and share them equally among 6 astronauts, how many cookies does each astronaut get?

_____
